**Unleash machines that drive
your performance higher.**

On the job site, days are measured by productivity. Your productivity. Which means you need equipment that stands up to the day's demands. JLG has what you need so you can put in the most productive day possible. Scissor lifts that can handle more workers and supplies in one shot.

Whether you're treading on slab or off, JLG® Scissor Lifts provide superior performance and reliability. Our engine powered scissor lifts deliver exceptional terrainability and gradeability. JLG RT Scissor Lifts have the capacity to accommodate both workers and our exclusive Workstation in the Sky® accessories. And the hybrid LE Series allow you to work both indoor and out.

Give your day's productivity a major boost upward with JLG Large Scissor Lifts.

MODEL 260MRT MINI ROUGH TERRAIN SCISSOR LIFTS

Narrow design, easy mobility.

With standard four-wheel drive, rugged lug tread tyres and 35% gradeability, you'll be able to keep work moving, on or off slab. The 260MRT compact scissor lift delivers exceptional mobility thanks to a narrow 1.75 m chassis that gets you into those challenging spots.

A large work platform with a 1.22 m roll-out deck extension keeps everything you need within arm's reach. Simplified ground control wiring and built-in diagnostics are provided for serviceability.

MODEL 260 MRT ADVANTAGES

- Narrow 1.75 m chassis fits into tight spaces.
- Standard four-wheel drive with 35% gradeability.
- Larger deck space and 570 kg capacity.
- Stronger arm stack for improved scissor rigidity.
- Ease of service with built-in diagnostics.

RT SERIES ROUGH TERRAIN SCISSOR LIFTS

Higher capacities, bigger platforms.

The powerful RT Series lets you work more efficiently on the job, over a range of applications, with increased lift capacities and bigger platforms. When you want to finish on time and on budget, put the RT Series to work for you. The exclusive MegaDeck® platform gets more people and materials up to your work area for optimum productivity. This is critical when you have applications requiring multiple sheets of drywall or siding.

Set up quickly and efficiently with the optional one-touch leveling jacks. With an average leveling time of 15 to 30 seconds, you can cut set up time by 100% compared to other scissor lifts.

RT SERIES ADVANTAGES

- Maximum 1,020 kg capacity for more workers and materials.
- MegaDeck with optional dual extensions provides over 13.5 m of work space.
- Up to 45% gradeability.
- 12.6 m and 15.11 m working heights.
- Faster leveling capabilities with optional one-touch leveling jacks.
- Hydrostatic 4-wheel drive delivers unmatched terrainability.

Leveling Jacks

Meet uneven surfaces head-on with the push of a button. You get precise self-leveling when positioned on up to a five degree angle from side to side and up to a four degree angle from front to rear.

AERIAL WORK PLATFORMS SPECIFICATIONS

Main Features

- Oscillating Axle on 3394RT and 4394RT
- 4-Wheel Drive
- Automatic Transmission
- AC Powercable to Platform
- Self-Closing Entry Gate

Main Features

- Oscillating front Axle on 3394RT and 4394RT
- 4-Wheel Drive
- Automatic Transmission
- AC Powercable to platform
- Self-Closing Entry Gate
