

Protect What is Important with CleanGuard[®]

This environmentally friendly leak containment system features custom fit trays to capture leaks and drips on the JLG[®] E18 Series of Vertical Lifts and Stockpicker - E18MCL, E18MML and E18MSP.

CleanGuard replaces the need to cover the entire underside of the machine and focuses on the key areas where leaks may occur. Designed specifically for the vertical lift or stockpicker, it does not interfere with operation or general servicing, and blends in with the aesthetics of the machine.

COLLECT DRIPS AND LEAKS TO:

- Protect delicate surfaces from leaks and stains
- Expand use of machines into places such as distribution warehouses, manufacturing facilities and other leak sensitive job sites
- Lessen risk of environmental hazards
- Reduce risk of slip hazards associated with slick surfaces

NOTE:
CleanGuard Trays Depicted in Yellow For Illustration Purposes; Trays are Black on Machine.
Front End Bracket Only on **E18MCL** and Includes Sight Gauge.
