Date: April 2, 2014

To: JLG Customers and Service Providers

Affected Units: SkyTrak Telehandler Models 6036, 6042, 8042 Legacy, 10042 Legacy, and 10054 Legacy, S/Ns 0160043712 thru 0160055290

Subject: Incorrect O-Ring Installed on Brake Valve Fittings/Adapters

Issue:

JLG has determined that certain SkyTrak brake valves, P/N 1001106836 may have incorrect o-rings installed on the adapter fittings, which could result in a fluid leak at the brake valve. Brake performance is not affected by this leak.

Resolution:

JLG has worked with the fitting manufacturer to ensure that the correct o-ring is being installed. It is recommended that the brake valve fittings be replaced to prevent the potential for leaks. Brake Valve Fittings Service Kit, (P/N 1001171117) is available; it includes SkyTrak Brake Valve Fittings Installation Instructions, (P/N 31212000).

Warranty:

JLG recommends the installation of this service kit at your next maintenance interval. JLG will reimburse your account the cost of the service kit, and one (1.0) hour labor for each unit completed. No travel will be paid in accordance with this Service Letter. This bulletin will expire 12 months after the date of distribution. Please reference SL 14-02 on your warranty claim.

This service kit can only be ordered by a local servicing entity of JLG products. This servicing entity must have a JLG account and be capable of purchasing parts and filing warranty claims. When ordering a kit the servicing entity will be charged (debited) for the cost of each kit.
