

Allison Schwartz
Communications Intern

“I chose to intern at JLG because from the moment I met them on campus I could tell how prominent the people first culture was. During the interview process I could also tell how genuine each team member was and that was super important to me in looking at different organizations. Each team member I talked to also cared about my future and what my goals were. When I did research on JLG and Oshkosh as a whole, I knew this was an organization I wanted to be a part of because of not only the difference that they make in the people they serve lives but in their team members. I could not be prouder to intern for JLG.

My whole intern experience has been amazing from the first moment. Each leader and team member were always welcoming and made sure I felt as comfortable as I could, any question I needed answered was always answered and explained. I love how I was given the opportunity to connect with the JLG team but also across segments. During my whole summer I felt like I was able to make an impact and was treated as a team member and not just as an intern.”
