

EV TRACTION DRY CELL BATTERIES

BATTERIES

Discover Lower Cost of Ownership

JLG® offers Discover® EV Traction batteries that are non-hazardous to the environment and are maintenance free. With longer life cycles and increased performance, EV Traction dry cell batteries are the solution to your stored energy needs.

Dry Cell Technology:

- Extended run time and battery life
- Copper and stainless steel terminals
- Sealed technology
- Charge retention rate of 97-99% per month

Environmental Benefits:

- Environmentally regulated battery of choice
- 99.9% gas recombination efficiency
- Made from recycled materials
- 98% recyclable

Reduce your cost-to-own over the life of the battery:

True cost of the battery, manufacturer's recommended maintenance schedule.

Related Item:

QuiQ Programmer (Kit No. 2915230):

- Modify the charge algorithm in your QuiQ charger

Features/Benefits:

- Kit includes USB cable and interface module
- Reprogramming Software
 - Add or remove a charge algorithm
 - Select different charge algorithm for charging
