

PERIMETER LIGHTING KIT ACCESSORIES

ENHANCE VISIBILITY IN ALL DIRECTIONS

The job doesn't always end when the sun goes down, often productivity on the jobsite depends on being able to see the surroundings of your scissor lift. The Perimeter Lighting Kit from JLG provides a visible perimeter around your machine that follows along while in operation. Ideal for indoor applications including warehouses, data centers, hospitals, libraries, and convention centers, or for outdoor use after the sun goes down.

KEY FEATURES:

- Simple to install with no hard wiring of harnesses necessary
- Utilizes high powered magnets for mounting
- Creates a lighted, visible border around lift
- Constant and immediate boundary on all four sides when the machine is on
