

TOOL TETHERING KIT ACCESSORIES

PROMOTE PLATFORM ORGANIZATION

Our JLG Tool Tethering Kit provides a ready to use kit to tether tools when using our JLG scissor lifts. The bag simply attaches using a patented Trilock™ Velcro system and improves the safety of storing tools at height. Suitable to hold up to 30KG of tools securely with 6 approved attachment points all suitable for supporting up to 5KG each.

FEATURES/BENEFITS:

- Tool tethers connect tools to anchor points to prevent dropped tools from injuring workers
- Anchor points attach to structures to connect the tool tether
- Includes bungee lanyards, d-ring straps, Trilock Velcro anchors, tethering tape, an accessory carrying bag, and a supplementary instruction manual
- Indoor application only
