

# SEE AND BE SEEN LIGHTING

## ENHANCED VISIBILITY

See and Be Seen Lighting enhances operator visibility of controls and the area around the machine as well as machine visibility to others in the work area in low light environments. There are four different kits making up the complete See and Be Seen light package. These kits can be purchased together for a total lighting package or as noted in the following tables. These kits include:

### 1. CHASSIS LIGHT KIT:

- Head lights
- Rear chassis lights
- Tail lights
- Turntable lights to illuminate the ground area between the wheels
- Ground control lights

### 2. PERIMETER LIGHT KIT:

- Perimeter marker lights to mark a machine perimeter from 6 feet beyond the wheels and larger

### 3. PLATFORM LIGHT KIT:

- Platform work lights to illuminate the work area at the platform
- Platform illumination lights to illuminate the platform floor

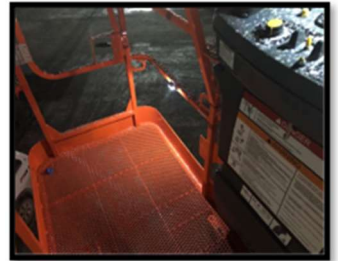

### 4. PLATFORM SUPPORT LAMP:

- Illuminates the ground area under the platform
