

SERVICE ARM PROP KIT ACCESSORIES

DON'T RISK SAFETY DURING MAINTENANCE

The Scissor Lift Service Arm Prop Kit is designed to increase safety during maintenance, allowing service with the platform securely raised. Whether you're performing routine inspections or critical repairs, this kit provides the peace of mind.

FEATURES AND BENEFITS:

- Secures arm stack during service and routine maintenance.
- Factory designed and approved
- Prevents unintended platform descent during service
- Easy to attach and remove - no tools required
