

ELECTRIC SCISSOR LIFT ACCESSORIES

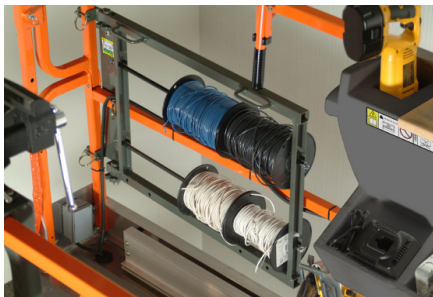

MAXIMIZE THE PRODUCTIVITY OF YOUR ES SCISSOR LIFT

Now you can turn your JLG® ES Scissor Lift into a highly productive work tool with a selection of Workstation in the Sky® accessories. These accessories are designed to integrate the tools and supplies you use everyday directly into the platform to conserve space and provide freedom from ground-based equipment. You will save time and money with better organization, faster set-up and improved efficiency on the job.

FEATURES/BENEFITS:

- Custom packages for electricians, plumbers and plant maintenance personnel.
- Removable workstation accommodates a full range of power tools and components.
- Keeps tools organized and always within reach.
- More room to work.
- Factory approved accessories.

Electrician Tree

Speed up wire pulling and reduce friction associated with ground based wire trees by having wires within an arm's reach.

Bench Vise

Used for clamping pipes to thread and cut, or hold other work materials. The vise is located at a height for comfort and ease.

Pipe Rack

Free up platform space and reduce trip hazards by storing pipe or conduit outside the platform. Storage outside of the platform prevents rail damage and optimizes available platform space.

QuikWelder

Ideal for spot welding, this self-contained wire feed welder saves time and space by eliminating the need to move bulky tanks or weld leads by integrating the leads and utilizing the scissor batteries to power the welder.

Plant Package

This package includes everything you need to get your work done efficiently. Combines elements of the Electrician and Plumbing packages: pipe/conduit racks, workstation with 12v plug, vise, Quik Welder Accessory and optional Electrician's tree.
