

PLATFORM CONTROL BOX COVER RETROFIT KIT

Protect Your Control Box

Inadvertant machine movement and falling debris can be dangerous. Increase the level of protection for both your equipment and operator with a Platform Control Box Cover. This enclosure around the joystick helps to reduce unintentional joystick movements, as well as provides a barrier for the operator's hand from falling objects.

Features and Benefits Include:

- Simple installation
- Easy to retrofit onto existing control boxes
- Extra level of protection from injury
- Hand safety
- Reduces inadvertant operation
- Limits damage to joystick controller
