

STEEL HOOD KITS

RETROFIT KITS

Provide Additional Protection For Your Boom Lift From The Elements

JLG offers our factory-approved hoods for your existing fleet. The retrofit kit consists of a complete steel hood assembly package including mounting weldments and hardware, along with detailed instructions to guide you through the installation process.

The robust nature of steel hoods provides additional protection from damaging elements, keeping your maintenance costs down.

The painted hoods will maintain their color comparable with other steel components on the machine, improving aesthetics throughout the life of your equipment.

Features and Benefits Include:

- Factory-approved retrofit kits
- Increased durability and improved long-term value
- Lower cost of ownership
- Free freight with economy orders
