

SMARTSHIFT KITS

RETROFIT KIT

Achieve Optimum Transmission Performance

Maximize efficiency while helping to protect your telehandler's transmission with the new SmartShift automatic shifting technology. SmartShift enables the transmission to automatically shift when 3rd and 4th gears are selected, reducing manual shifting and optimizing transmission performance.

Features and Benefits Include:

- Ensures the most efficient gear is selected when traversing rough terrain and climbing or descending a grade
- Manual shifting is required less often for improved efficiency
- Helps prevent transmission overheating
- Downshifts and reversals are prevented at high speeds helping to minimize transmission wear and damage
- Automatic shifting is only enabled when either 3rd or 4th gears are selected. There is no automatic shifting with 1st or 2nd gear
- SmartShift feature can be disabled by a service technician using a JLG analyzer
- Kit includes detailed work instructions to update all JLG 642, 742, 943, 1043, 1055, and 1255 models built before Nov. 10, 2019

MODEL	JLG KIT NUMBER
642, 742, 943, 1043, 1055, 1255	1001260947
