

# RAMHINO KIT

## ACCESSORIES

### Troubleshooting Support for Compact Crawler Boom Batteries

The Ramhino Kit is useful troubleshooting software for JLG Compact Crawlers that allows a laptop to be connected to the machine's CANbus network. It allows service personnel to check, using a dedicated interface, the information shared on the CANbus lines by the ECM's. This tool is particularly useful when servicing machines powered by lithium-ion batteries, as it shows a detailed overview of the lithium-ion battery pack status and how the pack components are working.

#### Features Include:

- All necessary cable connections
- Carrying case
- Usability for all generations of Compact Crawlers
- One convenient part number

DESCRIPTION	JLG PART NUMBER
RAMHINO KIT	18223100

#### Individual Kit Components:

Part Number: 08014700

Part Number: 07844200

Part Number: 17162500

Part Number: 17264200

Part Number: 18218600

Part Number: 26582800
