

COMPACT CRAWLER RAMHINO KIT TOOLS & SUPPLIES

TROUBLESHOOTING SUPPORT FOR COMPACTY

The Ramhino Kit is a troubleshooting software solution for JLG Compact Crawler equipment. It enables a laptop to connect to the machine's CANbus network through a dedicated interface. Service personnel can use this tool to view information shared across CANbus lines by the machine's ECMs. It also provides visibility into lithium-ion battery systems, including pack status and component-level activity.

FEATURES AND BENEFITS:

- All necessary cable connections
- Carrying case
- Usability for all generations of Compact Crawlers
- One convenient part number

DESCRIPTION	PART NUMBER
RAMHINO KIT	18223100
