

# SIDE-TILT CARRIAGE TELEHANDLER ATTACHMENTS

Adding to the versatility of the telehandler, the side-tilt carriage keeps the load level even when the terrain isn't. The carriage tilts loads from side-to-side to allow for uneven landing areas like a roof or sloped bank.

## FEATURES

- Side-shift carriages require auxiliary hydraulics
- Standard up-and-down tilt on horizontal plane
- +/- 10 degrees on JLG or Gradall Load or unload at any angle

### CURRENT PRODUCTION - Available through new machine orders or Aftermarket
