

Heighten Your Awareness with SkySense[®]

SkySense is an enhanced detection system from JLG that uses strategically placed object detection sensors to provide operators an added level of awareness of their immediate surroundings as they elevate and/or drive. When a machine is in use, the sensors establish warning zones and stop distances in the machine's direction of motion, increasing protection of people and property. The warning zones scale for functions with proportional joystick input, which is unique to JLG and SkySense.

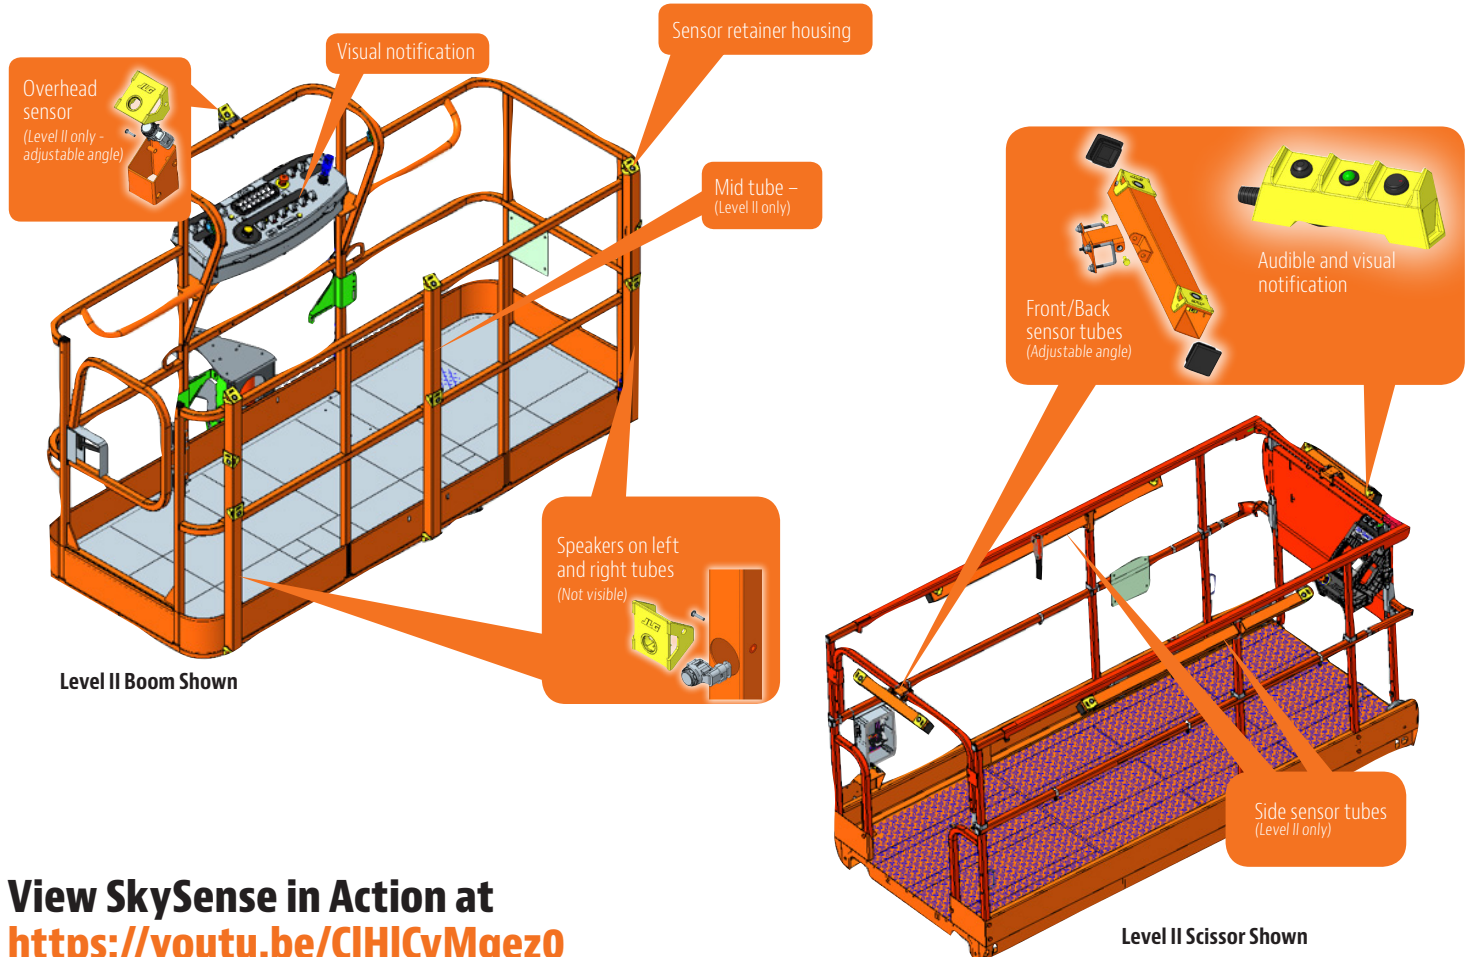

SkySense is Available for Most JLG Boom and Scissor Lifts

Increase operator confidence with a system that:

- Produces audible and visual warnings of obstructions
- Slows and then stops machine functions based on proximity to obstructions
- Minimizes onsite incidents and damage to machine and job site structures
- Upfits easily to existing machines in your fleet
- Offers two levels of coverage for a customized solution to your needs
 - Booms - Level I: 8 sensors; Level II: 12 sensors
 - Scissors - Level I: 4 sensors; Level II: 8 sensors

SkySense System Components

<https://youtu.be/CIHlCvMgez0>

SkySense cannot be used in conjunction with Soft Touch. See reverse for additional information and warnings.

SkySense System

Ultrasonic Sensors

- Conical sensing area
 - Does not provide a 100% envelope around the operator
- Oriented to provide optimal coverage behind the operator (Boom Level I)
- Operation function (drive, lift) determines which sensors are evaluating for objects

Notification Features

- Audible
 - Booms: Left/Right independent alarm
 - Scissors: Single alarm
 - Switch will turn speaker on/off
- Visual
 - Booms: Left/Right independent light(s)
 - Scissors: Single light

Sensor Warning Zones

- Warning and Stop zone distances differ based on machine function
 - Warning Zone – Machine in Creep (Booms), Elevated Drive Speed (Scissors)
 - Stop Zone – Machine stopped, over-ride required to continue operation toward object
- Stop zones for a given function are fixed
- Warning zones scale for functions with proportional joystick input

To Clean Sensors.

- Gently and cautiously wipe the sensor face using water
 - Acetone may be used if necessary
 - Excessive force may damage sensor face
- To order sensors separately, use part numbers 1001241162 & 1001237902

SkySense is Available for Most JLG Boom and Scissor Lifts

JLG® Booms

- Combustion Powered Boom lift models equipped with ADE (Advanced Design Electronics) except 340AJ and H800AJ
- E/M450A/AJ (S/N 0300208529 to Present, S/N B300001429 to Present)
- E/M600J/JP (S/N 0300219271 to Present, including S/N 0300218866 through S/N 0300218868)

JLG® Scissors

- 1930ES, 2032ES, 2632ES
- 2646ES, 3246ES (S/N 0200239382 to Present, S/N B200020297 to Present, S/N M200000100 to Present, S/N 1200025021 to Present)
- 1932R, R1932, ES1932, 2632R, R2632, ES2632, 3246R, R3246, ES3246, 4045R, R4045
- AE1932

Aftermarket Kit Part Numbers:

SkySense can be outfitted to your existing fleet.

Scissors	LEVEL I: 4 Sensors Part Number	LEVEL II: 8 Sensors Part Number
1930ES	1001247037	-
2032ES/2632ES		1001253958
2646ES/3246ES		1001247036
1932R, R1932, ES1932	1001254721	-
2632R, R2632, ES2632, 3246R, R3246, ES3246		1001254542
4045R, R4045		1001255884
AE1932		-
	1001273993	
Booms	LEVEL I: 8 Sensors Part Number	LEVEL II: 12 Sensors Part Number
All	1001252033	1001246860

WARNING:

SkySense is not intended to replace or reduce the need for the operator to be aware of the environment around the machine. Hazards that will cause serious injury or death may not be prevented or reduced by SkySense. The operator must always look in the direction of travel, avoid power lines, avoid obstacles that could strike the machine or persons in the platform, and follow all instructions, decals, and other warnings provided with this machine.

The operator must not rely on SkySense as a substitute for following the instructions and warnings contained in the manuals and placards provided with this machine.

Prohibited Options/Items:

The following list of options and accessories cannot be used on a machine outfitted with SkySense:

Booms:

Bolt-On External Fall Arrest	Platform Mesh	Top Rail Extension
Soft Touch	SkyGlazier	Fall Arrest Platform

Scissors:

Platform Work Lights	Pipe Racks	Electrician's Tree
Platform Rail Pads	Panel Carrier	Soft Touch
1/2" Airline	JLG Workstation	Dual Rails
Quik Welder
