

BATTERY DISCHARGER & BALANCER ACCESSORIES

MAXIMIZE THE PERFORMANCE AND LIFE OF YOUR BATTERIES

Often times when a battery pack is struggling with performance it is only one battery that is weak. Our Battery System Balancer allows you to fully recharge all of them at the same time but independently. You can then use our Quad Battery Discharger to discharge all 4 batteries the way a machine would to easily identify which is the problematic battery. Then, you can save time and money by only replacing the troublesome battery rather than all four the batteries in the pack.

QUAD BATTERY DISCHARGER

Features and Benefits Include:

- Works to balance batteries in a pack
- Saves money by adding life to your batteries
- Increases uptime
- Discharger recognizes initial battery voltages including 6V, 8V, and 12V
- Discharger offers customizable finish voltages
- Balancer recovers charges quickly and efficiently

BATTERY SYSTEM BALANCER

DESCRIPTION	PART NUMBER
