

# WHITE NOISE ALARM KIT ACCESSORIES

## WHITE NOISE ALARM KIT AVAILABLE NOW

This unique multi-frequency back-up alarm emits a warning signal when the machine is traveling in reverse. The multi-frequency alarm operates by emitting sound at multiple frequencies attenuated above 4000Hz so that the sound appears to dissipate more quickly than a conventional pure tone alarm.

### Features include:

- Warning signal is more directional and appears to dissipate quicker than a pure tone alarm
- Sealed for protection against dust, moisture, and vibration
- Emits sound at multiple frequencies attenuated above 4000Hz
