

SEATBELT ENGAGEMENT & OPERATOR PRESENCE ACCESSORIES

Seatbelt Engagement & Operator Presence Option Now Available

A Seatbelt Engagement and Operator Presence option is now available for select JLG® telehandlers. This system includes seatbelt engagement assurance, operator presence functionality, and a high visibility orange seatbelt. These features work together to enhance safety by using both visual and audible alarms, as well as limiting machine functions.

Features include:

- Operator presence feature restricts engine start and hydraulic functions when an operator is not present in the seat
- Seatbelt engagement feature produces a visible and audible alarm when an operator is seated and unbuckled
- Orange high-visibility seat belt encourages operator seat belt use
- Illustrated instructions make it easy to add to your existing fleet
