

WHITE NOISE ALARM KIT

ACCESSORIES

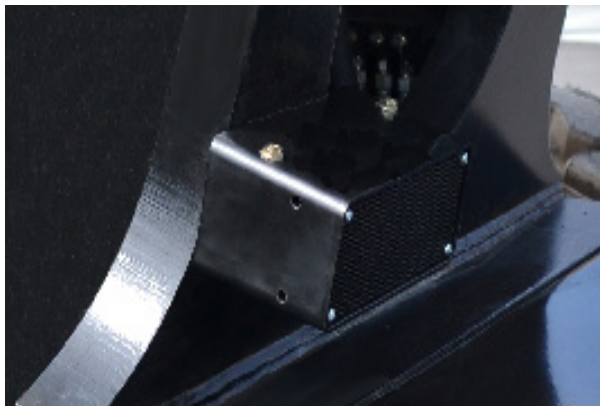

White Noise Alarm Kit Available Now

This unique multi-frequency back-up alarm emits a warning signal when machine is traveling in reverse. The Multi-Frequency alarm operates by emitting sound at multiple frequencies attenuated above 4000Hz so that the sound appears to dissipate more quickly than a conventional pure-tone alarm.

Features include:

- Warning signal is more directional and appears to dissipate quicker than a pure tone alarm
- Sealed for protection against dust, moisture, and vibration
- Emits sound at multiple frequencies attenuated above 4000Hz
- Effective installation by removing existing alarm and replacing with the white noise alarm

Specifications:

- Voltage: 12-24VDC
- Amps: 0.8
- Volume: 107
- Temperature Range: -40F to +185F
- Frequency: 700 to 2800 Hz
- Approval: SAE J994 Type B, CE, R10, AMECA, IP66
