

SOLID SKID STEER ASSEMBLIES

AFTERMARKET PARTS

Direct Ship

Don't let flats take the air out of your profit.
Switch to solid aperture skid steer
tires from JLG.

Flat tires are your enemy and if you are running on pneumatic tires, your enemy is closing fast. Recent studies found that flat tire downtime is the most costly issue associated with tire failure - with lost use of machine, idle workers, lost billing, etc.

JLG Aftermarket parts is your one-stop shop for parts, accessories, supplies, and attachments. We are pleased to supply solid aperture tires for your fleet of skid steer loaders. All features considered, Solid skidsteer tires from JLG offer the lowest cost-per-hour of use for your skid steer machine.

Features & Benefits

- Order via OnlineExpress
- Eliminate 100% of downtime due to flats
- Durable natural rubber compound construction for 3-5 times longer life than standard pneumatics.
- Aperture technology provides cushioned ride - easy on man & machine.
- Aggressive, deep treads provide traction in all conditions.
- Wheel and tire assemblies bolt directly to your machine - you are working in minutes.
